FABULOUS A-LEVEL RESULTS AT CHIPPING CAMPDEN SCHOOL

THURSDAY 13th AUGUST 2026

Earlier today, students, parents, and staff at Chipping Campden School came together to celebrate the outstanding A-Level results achieved by the class of 2026.

Close to one in five grades awarded were either an A* or A, with some incredible individual achievements across the full ability range and across all 32 courses - one of the widest course offerings in the local area. Additionally, 23 students successfully completed the Extended Project Qualification (EPQ), with almost 3 in 4 students (74%) achieving A* or A grades. The school is also one of the largest providers of Level 3 Mathematical Studies in the South West, with 89 students completing this course alongside their three or four A Levels.

These results have enabled the vast majority of our students to progress to their preferred destination, whether that be university, an apprenticeship or employment. Of the 138 students who applied to university this year, 74% secured the grades necessary to reach their 'firm' choice, with a further 9% offered a place at their 'insurance' choice. More placements are expected throughout the day as students are supported through the clearing process. Below is a flavour for the breadth of university courses and destinations secured by our phenomenal students today:

- **Accounting and Finance** at the **University of Manchester (**Mahavir)
- **Adult Nursing** at the **University of Chester** (Ella)
- **Biology** at the **University of Bath** (Rose)
- **Business Management** at the **University of Cardiff** (Poppy)
- **Creative Direction for Fashion** at the **University of the Arts, London** (Nel)
- **Early Childhood** at the **University of Worcester** (Catherine)
- **English Literature** at the **University of Warwick** (Will)
- **Film & TV Production** at the **University of Bournemouth** (Toby and Thomas)
- **Geography** at the **University of Bristol** (Phoebe)
- **Graphic Design** at the **University of Falmouth** (Zara)

- **Interior Architecture** at **Glasgow School of Art** (Scarlett)
- **Law** at the **University of York** (Olivia)
- **Modern Languages** at the **University of Aberystwyth** (Rekha)
- **Paramedic Science** at the **University of Northampton** (Tabatha)
- **Photography** at the **University of Bath** (Hugh)
- **Politics and International Relations** at **Newcastle University** (Harry)
- **Sport and Exercise Science** at the **University of Loughborough** (Jack)

Our Principal, Gareth Burton, said:

“We are delighted to congratulate our Year 13 students on their outstanding examination results. Their achievements are a testament to the hard work, determination and resilience they have demonstrated throughout their time at the school. We are incredibly proud of every student and the commitment they have shown in reaching this important milestone.”

These results reflect not only the dedication of our students, but also the support and encouragement provided by our teachers, support staff, families and wider school community. We would like to thank everyone who has played a part in helping our Year 13 students to succeed and for creating an environment in which they have been able to thrive.”

“As our students now look ahead to the next chapter of their lives, whether progressing to university, apprenticeships, employment or other exciting opportunities, we wish them every success for the future. We are confident that they will take the skills, knowledge and experiences gained during their time at Chipping Campden School with them to achieve great things.

Congratulations to the Year 13 class of 2026 – we are exceptionally proud of you all.”

As you take your next steps - whether into university, apprenticeships, or the world of work - remember that you will always be part of the Chipping Campden story. We can't wait to hear about your adventures and achievements through our ever-growing Campden Alumni network.

To stay connected, please email your contact details to ccrossley@campden.school and continue to inspire the generations of Campdonians that will follow in your footsteps.
